New Orleans, La., October 22.—Cotton—Spot cotton easy, 1-16c. lower; middling, 143-15c. Sales on the spot 400 bates and 800 to arrive. Futures opened steady, 45-10 points down as the result of bear pressure. Liverpool was considerably higher than expected, and the weather map indicated that the cotton belt was experiencing one of the coldest spells in its history, the time of the year considered, but manipulative tactics were resorted to by the bears in order to prevent the advance that ordinarily would take place on these features. After the call, the market was nervous and undecided, and at the end of the first half hour the trading months were 750 points under yesterday's close. Pressure on the market increased as the session grew older. The crop estimate of 12,600.000 beles was issued during the morning, and much capital was made out of it by the leading bears. With futures down around the life, level many stop-loss orders were reported on the long side of the market closed steady at a net decline of 116 22 points. Futures closed steady. Closing: October, 14.01; November, 14.02; December, 14.01; January, 14.11; Narch, 14.23; May, 14.30.

The Service of a Trust Company

"Following closely upon the administration of the estate of the late Chief Justice Fuller by The Merchants Loan and Trust Company, as one of the executors and trustees under the will, comes the probating of the estate of the late Lambert Tree, another eminent jurist, the petition in this case being presented to the probate court on Wednesday by The Merchants Loan and Trust Company, as executor and trustee of the estate. These two instances of the corporate handling of estates are notable ones for the reason that both gentlemen were eminent in the profession of law—one having occupied the highest place in the world's greatest tribunal, and the other having distinction throughout both continents as a lawyer, a judge and a diplomat, and both having chosen the same institution to administer their affairs. And there is even more than this prominence to be given the circumstances. When men so schooled in legal requirements than this prominence to be given the circumstances. When men so schooled in legal requirements and legal responsibilities, to say nothing of legal possibilities, turn to the modern trust company and use its machinery as a safeguard for the proper handling of their estates after death, the system is given the strongest possible endorsement. The estate of Justice Fuller was valued at nearly one million dollars, while that of Judge Tree is more than four and a half million dollars."

The above editorial clipping from the Economist was handed to us by one of our thoughtful citizens with the suggestion that we make it the basis of an advertisement. We adopt the suggestion because it emphasizes our proposition, to-wit: That a strong institution like the VIRGINIA TRUST COMPANY is better qualified to act

as Executor and Trustee than an individual. The reasons are many, and we invite the opportunity of pointing out these advantages to any prudent man or woman interested in the matter.

Booklet on trusts sent free. In it are given some valuable information about the drawing of a Will.
